DETAILED ACTION

The rejection under 35 U.S.C. 101 has been withdrawn.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, drawn to a method of generating a customer invoice, classified in class 705, subclass 35.
- II. Claims 11-20 are, drawn to a billing system, classified in class 705, subclass 38.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the method can be practiced by hand.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to counsel to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3624

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Respectfully,

By, 

Richard C. Weisberger
